

IMPORTING YOUR BIKE INTO THE UK

Motorbikes being shipped to the UK are subject to Customs clearance, security screening and Dangerous Goods procedures, which all take time to process.

Shipping a motorbike into the UK involves a Customs requirement for which you will need the assistance of a Freight Forwarder.

Prior to travelling to the airport to collect your bike, a Customs clearance needs to be prearranged. Many Forwarders do not work weekends so it is important that your Forwarder knows in advance your intended pick up schedule.
