Member of Alliance International de Tourism Union & Federation International de L'Automobile

Reg. No.4 Fondation 1935

Date: 7th September 2019

No: 300, 98, 1345

Dear Colleagues, Dear friends,

I would like to apologize for any inconvenience occurred to your club/Federation or your members/customers regarding the restriction on temporary importation of the motorcycles with engine capacity of more than 250 CC into Iran.

It is my pleasure to inform you of the following important updates:

1- According to Iran's Customs Administration official letter dated 24, August 2019, the temporary importation of the motorcycles above 250 CC into Iran is permitted.

Note: An AIT/FIA Carnet de Passages en Douane (CPD) is advised by the Customs Administration for the temporary importation of all the motor vehicles and trailers.

2- According to Iran's Traffic Police official letter dated 17, August 2019, the ban on temporary traffic of the motorcycles above 250 CC belonging to the foreign travelers and tourists is removed.

Note: A temporary registration number plate (in Persian alphabet/s or number/s) should be allocated for such motorcycles at the nearest Traffic Police Station, upon advice (in written) by the Customs' officers at the borders on arrival.

We will do our best to update you about information you need to know before travel to Iran with a motoring vehicle as soon as possible.

Sincerely Yours,

Mehdi Alamdar

Head of International Affairs

Member of the AIT/FIA Customs Council
